LEO FOUNDATION

2023 call and deadline

LEO Foundation Award

The LEO Foundation Award was born out of the aim of advancing the understanding and treatment of skin diseases and strengthening the pipeline of excellent dermatology researchers. It recognizes promising young talents and hopefully provides a boost to their future careers.

Three awards are made each year, one in each of the regions: Americas, EMEA (Europe, Middle East, Africa) and Asia-Pacific. Each award is worth USD 100,000.

**DEADLINE for self-nomination - all regions:
25 January 2023 (midnight CET)**

Mark your calendar:

In 2023, all three LEO Foundation Award winners will be presented at the International Societies for Investigative Dermatology (ISID) meeting 10-13 May 2023 in Tokyo, Japan.

The application process and system

This guide is meant to assist applicants in addressing the essential steps when applying for the LEO Foundation Awards.

As a first step, please read about the LEO Foundation Awards on the [web-page](#) and pay particular attention to the objectives of the award and the eligibility criteria. We also recommend that you read the [award terms and conditions](#) carefully to ensure that you and your host organization can comply with the conditions set forth herein.

Next, please log in to the application system here: https://leo-foundation.smartsimple.ie/s_Login.jsp

If you are accessing the system for the first time you will need to create a user account and fill in all mandatory information before you can apply. Otherwise, just log in with your existing credentials. Remember that your password will need renewal every 90 days.

Once you have completed your user account profile you can create applications for any open award calls if you are eligible. Once you have created a draft application you can edit it at any time until the submission deadline for the related call.

The application form will initially present you with an acceptance screen where you will need to accept both the award terms and conditions (available through a link) and the eligibility criteria in order to proceed. Upon acceptance you will get access to the actual application form, consisting of two sub-sections (tabs) which are explained in detail below. If you experience any problems, feel free to contact the LEO Foundation at awards@leo-foundation.org.

1. Applicant details

This tab is partly auto-populated from the user account profile. If you wish to add your job (business or academic) title to the application, you need to update this under your Personal Profile found under the single letter icon at the top right corner of the screen and it will then be added upon next save. Mandatory fields to complete are your Date of Birth and field for Career Breaks (if you have had any).

2. Application Form:

This tab is for the actual application and contain sections for:

- **Curriculum Vitae (CV):** Please upload a comprehensive CV including all relevant information needed for a proper evaluation – e.g. career positions, educational background, teaching and/or reviewing experience, patents, independent funding, and publications. Your CV should not exceed five pages.
- **Letter of Recommendation:** Please upload a supportive letter from a current or previous head of unit, mentor, collaborator or colleague at a more senior academic level – at least Associate Professor.

- **Applicant Research Profile:**

a) Research experience to date (max 250 words):

Here you should describe your previous scientific work on which the application is based.

b) Peer-reviewed work published to date (max 10 publications, no abstracts)

Please list up to 10 of your strongest published, peer-reviewed publications (e-pub is accepted). Please include DOIs or direct links to either publisher or bibliometric database.

c) Current and previous independent grant funding and fellowships (last three years, max five grants/awards):

Please list up to five grants/fellowships or awards you have received as PI or co-PI during the last three years.

d) Vision of your future research (max 500 words):

Please describe here your vision for your future work and how this aligns with your previous achievements. Also, remember to describe how you envision your research will eventually create impact – both in the scientific community, the general public and for decision makers and patients alike.

Eligibility information

The LEO Foundation Awards constitute global recognition of individual scientists who represent excellence and advance our understanding of skin and skin diseases. Our regional awards - of USD 100,000 each - are given annually to outstanding young scientists within regions Americas, EMEA and Asia-Pacific, whose work represent extraordinary contributions to dermatology research.

An applicant should

- Have his/her primary workplace within the relevant region at the time of being selected as awardee
- Be between 30 and 40 years of age at the time of being selected as awardee. Natural and reasonable career breaks such as paternity/maternity leave, military service or the like may be deducted
- Be able to demonstrate scientific merit in the form of at least 5 peer-reviewed first author or co-first author publications within skin-related research
- Be an active scientist within skin-related research
- Agree to become a 'LEO Foundation Alumni' with accompanying obligations, if selected as awardee.

An applicant should NOT

- Have commercial or cosmetic/aesthetic research as his/her primary focus
- Have personal or financial ties to LEO Pharma, including involvement in e.g. sponsored studies or clinical trials at PI level
- Be an earlier recipient of a LEO Foundation Award
- Be an earlier recipient of another prize or award (personal or for research) exceeding a value of USD 50,000. Regular research grants are exempt from this condition.

Further information

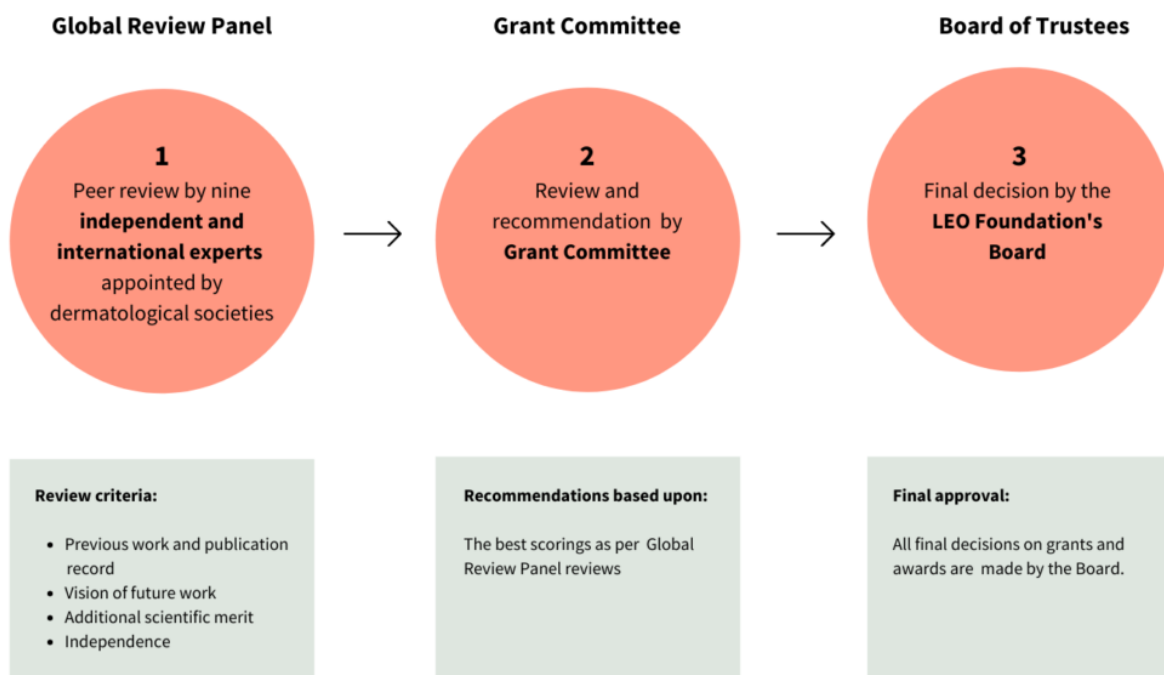

Once the call deadline has expired, the Foundation's secretariat screens your application for formal requirements and if approved, sends it to an independent expert committee - the Global Review Panel - for evaluation. The current composition of the panel can be found on the homepage [here](#).

The LEO Foundation will ensure an independent and unbiased evaluation process in which all applications will be evaluated based on the same criteria and towards the same scientific level. It will normally take approx. three months from application deadline to award decision.

The evaluation will focus on four main areas: **1)** Previous work and publication record **2)** Vision of future work **3)** Additional scientific merit (e.g. reviewing experience, undergraduate and graduate student supervision, societal appointments and organizer of scientific meetings etc.) and **4)** Independence (incl. ability to obtain independent funding)

Once you have completed your application you can submit it. Please note that if any mandatory elements are missing you will not be able to submit. You will be notified by email if there are changes requested and when a decision regarding your application has been made.

Application process:

The LEO Foundation is one of Denmark's largest commercial foundations and an engaged owner of the pharmaceutical company LEO Pharma. The Foundation's main objective is to ensure the company's long-term development and success.

Besides the ownership, the LEO Foundation provides philanthropic grants with the aim to support the best international research in skin diseases and make Denmark a global beacon for skin research.
